

Welcome! We'll help you make the switch.

Let's get started! We'll make the process as easy as we can.

Keep this number handy

First Federal Lakewood Routing Number: **241071212**

Remember—keep account numbers safe and secure!

Your new account numbers:

Checking: _____

Checking: _____

Savings: _____

Step 1: Stop using your old accounts. Allow up to 10 days for checks to clear. Destroy old checks, deposit slips and debit cards. **BONUS: we'll pay up to \$10** for your old checks and debit cards.

Step 2: Change your direct deposits.

Direct Deposits are funds that are automatically deposited into your accounts – like your payroll. The easiest way to get them switched to your new First Federal Lakewood account is to first gather the information below. Then, we can help you contact each institution to make the switch (or you can handle it on your own). Some institutions require a specific form to be filled out and most can be handled online. Just take it one at a time.

Now, let's not forget about those other automatic payments you make each month:

Step 3: Change your automatic payments, recurring debit or credit card payments, and bill pay.

Automatic payments (ACH) are great for payments that rarely change. **Bill Pay** is a better option when you want **total control of when and how much** is paid. Bill Pay is also more secure than sharing your account numbers with several different billers. **We can help** get your automatic payments switched over to First Federal Lakewood – and the first step is to gather some information.
